Highways and bridges. The extra amount paid out for highways and bridges, for the past year, has been mostly expended for shingling and repairing bridges and for tile.

With the exception of the amount due from taxes, our assets are as good as so much cash on hand.

There should be an allowance made for abatements on taxes, as there are always more or less made, but, of course, my report should be made as the figures actually stand at this date and not on what may take place.

All of which is most respectfully submitted.

CHARLES CHILD, Treasurer.

Of our nine teachers it is proper to observe that they are teachers of extensive experience, thorough qualification and mature judgment, and exhibited evidence of improvement that appeared to be satisfactory to those most deeply interested, such as to merit encouragement to persevere in the honorable and responsible occupation of a teacher. The different schools have not been visited by parents as much as they ought.

The Village School, winter term, but one parent visited the school, but some others that do not know how a school room looks are the ones that criticise the schools and find the most fault with both school officers and teachers.

We must act conscientiously with reference to our educational interests.

A word or a ballot employed in the worthy cause may

seem a trifling thing but who can estimate in its beneficent results, "How far the little candle shall throw its beams." "The mightiest works of human hands live but an age, before they fall," but the words we speak and the efforts we put forth for the benefit of the young, will be repeated and reflected along the generations when our voices are silent and our work is done.

With these suggestions the foregoing report is respectfully submitted.

CORA S. LANG,	}	School Board
C. W. SAWYER,		of
S. E. RANDALL M. D.,		Bath.

I have examined the foregoing accounts and find them correctly cast and properly vouched.
